Business landscape is changing

The business landscape is changing at an ever increasing rate and with rapid change inevitably come cost control challenges.

- Shifting consumer and stakeholder expectations
- Ecosystem disruption, new dynamics, channels and competitors
- The content of work, the required capabilities, and also the workforce are changing rapidly
- Supply chains and business ecosystems are more global and complex than ever

Companies continuously have to rethink and adjust their business models and their cost base. Procurement plays a key role in ensuring that your company is fit for the challenges ahead.

Top and bottom line impact

Our approach drives a culture of accountability and discipline, maximizing the value of value improvement initiatives that drive cost down and value up.

Having a clear, forward-thinking value and cost strategy that is aligned with the business is a critical element of becoming a successful procurement organization. Taking a strategic approach to managing your third party spend and updating your procurement operating model leads to a direct increase in profitability and value.

We use a structured approach to Find, Get and Keep savings. By creating spend transparency, we identify areas of underperformance and with our hypothesis-driven approach we identify and convert ideas into clear value improvement initiatives. To create transparency and ensure an efficient way of working we use a broad range of solutions to power procurement through digital and analytics.

Our Approach

- Our approach is built on our knowledge of critical success factors in spend optimization projects - that we developed and fine-tuned based on our decades of experience
- We apply a transformational approach to identify, realize
- Co-creation between procurement, business and finance drives adoption and capability building
- We unlock value by applying both business and procurement lenses
- To track progress we work with a structured stage gate process to create an eagle’s eye view on value delivery and cost reduction
- We leverage on our procurement excellence framework to help you to unlock new value and savings
